

Access Log Reports (Department for Work & Pensions)

- These include only material where the party involved is clear (from the IP address, and/or immediate circumstances)
- They are distilled from the original Apache access log (AL) files, which are available on request to an appropriate party for verification
- HTML documents appear even where they have been recently accessed and thus cached by the browser
- All URLs are given as offsets from my website domain specification: <https://www.elpobrecorderito.com/>
- There are hyperlinks to documents wherever appropriate
- Hover (mouse-over) icons are included where they give useful information about user actions
- All times are GMT (adjusted from the original access logs)

29 January 2019 (AL 05.2)

IP / Details	51.149.2.5 / HMG Government Property Agency (dwp.gsi.gov.uk), London (?Poplar, Tower Hamlets)
User Agent	Google Chrome 71.0.3578.98 / Windows 10
Context	Arises from the Opinion Rejection that I sent on 27 January; either whistleblowing or consultation. The following accesses are from links within said Opinion Rejection, which the adjudicator must have sent to DWP as an attachment.
11:08:22	PersonalPensionFiasco/Verification.html
11:49:28	PersonalPensionFiasco/Overview.html
11:58:31	PersonalPensionFiasco/Emails/20160405FromSWRequirements.pdf (SW's documentation requirements).
12:22:09	PersonalPensionFiasco/Icons/P1h.png (hover icon shows they were looking at the Overview at this time).
13:51:26	PersonalPensionFiasco/DetailsTPO.html
15:35:57	PersonalPensionFiasco/Documents.html
15:39:01	PersonalPensionFiasco/Outcome.html
15:39:06	PersonalPensionFiasco/Questions.html
15:39:07	PersonalPensionFiasco/Epilogue.html (I cannot tell how long DWP spent looking at this page, but it contains an important section on the conduct of the Pensions Ombudsman, as well as other issues that should concern DWP).

05 March 2019 (AL 10.2)

IP / Details	51.149.2.8 / HMG Government Property Agency (dwp.gsi.gov.uk), London (?Poplar, Tower Hamlets)
User Agent	Google Chrome 72.0.3626.119 / Windows 10
Context	Presumably a follow up to their examination of 29 January in response to whistleblowing by a concerned TPO adjudicator, or alternatively consultation. Again, the accesses appear to be from links in my Opinion Rejection . <i>One can only hope (although against the evidence) that this organisation is less corrupt than the Metropolitan Police.</i>
11:49:33	PersonalPensionFiasco/Verification.html
11:50:59	PersonalPensionFiasco/Docs/Extra/mlr8_tcsp.pdf (**404 error - unfortunately I put this saved government document of the 2007 AML regulations in the wrong directory - now fixed).
12:36:33	PersonalPensionFiasco/Docs/SW/20160706fReqDocsN80803X.pdf (SW's last letter/form). <i>This (together with the corresponding PDF form below) shows clearly that National ID card is a valid means of verifying Name; and the other paper forms are clearly erroneous. This is contrary to the assertions of the Pensions Ombudsman in the Final Determination.</i>
12:45:37	PersonalPensionFiasco/Attachments/Individual Identification and Verification Form.pdf
12:49:53	PersonalPensionFiasco/Docs/SW/20160915Final0824.pdf (SW's Final Response).

05 June 2019 (AL 23.3)

IP / Details	51.149.2.7 / HMG Government Property Agency (dwp.gsi.gov.uk), London (?Poplar, Tower Hamlets)
User Agent	Google Chrome 74.0.3729.169 / Windows 10
Context	Unclear, being some three months after the previous access.
09:49:47	PersonalPensionFiasco/Front.html (referenced by the directory name - no referrer).
09:49:57	Home.html (from new link to home page at top of each page in Personal Pension Fiasco website).
09:51:45	PersonalPensionFiasco/Overview.html (probably from first textual link on home page).
09:53:07	PersonalPensionFiasco/Docs/TPO/20181105FromTPO.pdf (accessed from section "A Clear Conspiracy..."). This is the effort by Jane Stephens to sustain and continue Barry Berkengoff's attempt of a year ago to push me into a blatantly corrupt "pragmatic solution".
09:53:37	PersonalPensionFiasco/Docs/TPO/20181111ToTPO.pdf . This is my explicit reply to the above, accessed from same section.
09:54:17	PersonalPensionFiasco/Docs/TPO/Complaint Response20170915.pdf (no referrer - perhaps accessed from above document).
09:56:15	<i>Mouse-over navigation icons: Details(TPO), Details(SW), Event Summary, Verification Issues.</i>
09:56:56	PersonalPensionFiasco/Docs/DWP/AccessReports.pdf (this file, accessed from an erroneous link with unterminated anchor tag - page under construction). <i>So now they know that I know that they know about TPO corruption; but I already have all the evidence I need.</i>

28 August 2019 (AL 35.3)

The following access was by the Committee for Work and Pensions, not DWP.

IP / Details	194.60.38.225 / The House of Commons
User Agent	Google Chrome 76.0.3809.100 / Windows 10
Context	Response to my email of 26 August 2019 , to which I received a reply on 29 August. The following was the only link accessed out of several in this email.
15:55:28	PersonalPensionFiasco/Docs/DWP/20180505ToDWP.pdf (report of Scottish Widows and TPO misconduct, sent to the Select Committee for the Department for Work & Pensions and apparently others through an intermediary).
